technical data

Astoria's divina SAE/3 is the automatic espresso/cappuccino coffee machine for the large specialty coffee retailers. With a large boiler and powerful heating element, it can supply a constant flow of dry steam for the preparation of espresso based drinks in the busiest coffee shop. This model can dispense four different coffee dosages from each brewing head and is also equipped with independent semiautomatic override switches on two. Real max. Production capability: 720 espresso servings per hour.
