

the **SAE 2** *Cooper and Brass Version with Dome and Grinder*

product

the original
Astoria
machine

The Astoria 2-group features a beautifully handcrafted dome, adding an old world touch to this automatic espresso machine. It is made of highly polished, heavy gauge stainless steel and copper, which may be paired with a copper finished grinder.

The warmth of an old world machine can be achieved by adding the smaller handcrafted copper dome to a 1-group machine.

Suggested price
as low as
US\$ 7,980.00
