

the **SAE 2** Automatic **BOOSTED** product

the original
Astoria
machine

technical data

The dream of all barista come true! The performance and the power of a three group machine within the dimensions of a two group. The oversized boiler (15 qts.) for high volume of steam, and the heating element (6000 watts) for fast recovery are guaranteed to satisfy all your needs. A microprocessor controls operation, providing volumetric measure of water for coffee brewing. The touch pad control can program 4 different coffee dosages, selecting them automatically and independently for each group. there is also a push button control for semiautomatic brewing. SAE2 Boosted is available in Winchester Gray or Stainless Steel and Copper.

Width 27 1/2 * in.
Depth 21 in.
