

THRIFTY POP 12

Twelve Ounce Popper

[Thrifty Pop 12oz. Popper](#)

[Thrifty Pop 12oz. Popper with Cart](#)

Paragon

Since the Thrifty Pop 12 popper will operate on a 20 amp circuit it is ideal to use in schools because it doesn't require a dedicated circuit. This allows it to be used in multiple locations and still produce 221 servings per hour. This full-feature machine uses a gas spring assisted kettle for easy unloading, four-switch operation, kettle "ready" lights and a Hard-coat anodized aluminum kettle for superior performance and ease of cleaning. The heated warming deck will keep popcorn warm and fresh for long periods of time.

IDEAL FOR:

Schools, Convention Centers, Zoos, Midways, Concession Stands, Snack Bars

| Part# | Description | oz/hr | Volts | Watts | Amps | Dimensions | Wt. | Cost |
